

Caregiver Showering System

Allows easy access for bather entering and exiting shower.

Designed to shield caregiver attendant from water while allowing reachable access to assist bather. The shower rod is constructed of 18 gauge stainless steel with a telescoping feature allowing the rod to extend to a range of 39 to 60 inches. The rod pivots to allow the bather easy transfers from walkers, wheelchairs, ceiling lifts, or shower chairs without removal and provides the attendant clear access. Caregiver curtains are available in 34 inch and 74 inch lengths. For use with barrier-free showers.

Complete Kit includes weighted attendant height curtain, stainless steel pivoting and telescopic shower rod plus commercial grade heavy-duty stainless-steel wall brackets.

Benefits for clinical healthcare professionals and home caregiver attendants include:

- Water protection - caregiver stays dry.
- Safe footing - prevents wet floors.
- Easier reach to assist bather.
- Pivoting rod allows clear passage and easy patient transfers into the shower from wheelchairs, ceiling lifts or shower chairs.

CUR-134CG-KIT: (includes 34 inch curtain without hooks, telescopic shower rod and mounting hardware)

CUR-134CG-KIT-X: (includes 74 inch extra tall curtain with hooks, telescopic shower rod and mounting hardware)

Ceiling Lift, track and sling are not included
